SUMMARY

MCA graduate with internship experience in full-stack web development and an IEEE-published research paper in AI-based stress detection. Skilled in React.js, JavaScript, Python, SQL, MySQL, REST APIs, database management, and software testing. Hands-on experience in building responsive web applications, integrating backend services, and developing machine learning solutions with strong analytical and problem-solving skills.

EDUCATION

NMAM Institute of Technology Master of Computer Application	Nitte, India August 2024 – June 2026
KLE Society's S Nijalingappa College Bachelor of Computer Application	Bengaluru, India Oct 2021 – July 2024

TECHNICAL SKILLS

Databases: MySQL, Oracle, MongoDB, SQL
Tools: Git, GitHub, VS Code, Eclipse, Postman
Core Skills: Full Stack Web Development, REST APIs, Database Design, SQL Query Development, Software Testing, Problem Solving, Database Management

INTERSHIP EXPERIENCE

Abhimo Technologies Private Limited Full Stack Developer Intern	Mangalore, India Jan 2026 – May 2026
---	---

- Built database-driven web applications using React.js, Node.js and MySQL.
- Wrote SQL queries for data retrieval, validation and backend integration.
- Collaborated with developers to troubleshoot application issues and improve database performance.
- Contributed to a client-facing project approved by an Australian client.

PROJECTS

Sign Language Translator Python, TensorFlow, Keras, MediaPipe, OpenCV, NumPy, Streamlit Machine Learning Project Developed a real-time sign language translator using CNN, MediaPipe and OpenCV.	GitHub
Diabetes Prediction Using Machine Learning Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn Machine Learning Project Developed a machine learning model for diabetes prediction with data preprocessing and visualization.	GitHub
Event Management HTML5, CSS3, Bootstrap 5, AngularJS, jQuery, JavaScript Full Stack Web Development Developed an event management application with authentication and event management features.	GitHub
Vachana LMS React.js, TypeScript, Node.js, MySQL Full Stack Developer - Developed a Learning Management System using React.js, Node.js and MySQL. - Designed relational database schema and integrated REST APIs. - Built role-based modules for learners and administrators.	Linkedin

PUBLICATIONS

A System and Method for Vision-Based Stress Detection Using Facial Expressions and Convolutional Neural Networks
IEEE International Conference on Artificial Intelligence and Data Engineering (AIDE 2026)

- Published in IEEE Xplore Digital Library.
- Presented at AIDE 2026.
- DOI: 10.1109/AIDE69088.2026.11544791

COURSES AND CERTIFICATIONS

- Full Stack Development - Coursera, Meta
- Microsoft Azure, AI and Applied AI Learning Challenges
- Cloud Computing SDP - Wipfli, Bangalore
- Introduction to MongoDB - Coursera
